President:
RAO BAHADUR K. T. ALVA.
RTD. JOINT DIRECTOR OF AGRICULTURE

Secretary:
DR. K. B. SHETTY
HAMPANKATTA

20- 8- 1952.

To

The Director of Community Projects,
MADRAS.

Through
The District Collector,
South Kanara, Mangalore.

Through
The District Veterinary Officer,
South Kanara, Mangalore.

Sir,

I have been authorised by the above Association to communicate the following resolution for your kind perusal and consideration:-

Resolved to request the Director of Community Projects to open an Artificial Insemination Centre at Mangalore and another at Karkal.

You are well aware that South Kanara cattle are of very poor breed. This is the only ideal method to improve the breed.

Yours faithfully,

K. B. Shetty

Sir,

Sub: PLANNING COMMISSION--Community Projects--South Kanara District--Opening of artificial insemination centres at Mangalore and Karkal--Request

---

Ref: Government Memorandum No.73 Public (CP.II)/52-1 dated 4-9-1952.

******

The Artificial Insemination of Cattle is a new technique and it has not made any headway in the field. The introduction of this technique will greatly make the available good bulls serve a larger number of cows, which as in South Kanara are of poor quality. As the proposal has come from the Public it is hoped that they will avail of the artificial insemination facilities proposed to be provided to the fullest extent. I therefore recommend that two Artificial Insemination Centres may be opened at the Veterinary Hospital, Mangalore and Minor Veterinary Dispensary, Karkal.

(i) ARTIFICIAL INSEMINATION CENTRE AT VETERINARY HOSPITAL, MANGALORE.

There are 2422 cows and 3378 she buffaloes of breedable age in Mangalore Town. The Centre can be accommodated in the Veterinary Hospital itself. Two Sindhi Breeding Bulls and a Murrah Buffalo Breeding Bull available at the Veterinary Hospital, Mangalore can be used for Artificial Insemination work. One refrigerator is also available at the Veterinary Hospital. A statement of cost is enclosed. (Appendix A).

(ii) ARTIFICIAL INSEMINATION CENTRE AT MINOR VETERINARY DISPENSARY, KARKAL.

This Centre is to be located at the Minor Veterinary Dispensary, Karkal. There are about 1400 cows and 400 she-buffaloes of breedable age. Bulls will be supplied from the Cattle Farm. A detailed statement of cost is enclosed. (Appendix B).

Yours faithfully,

for DIRECTOR OF ANIMAL HUSBANDRY
MADRAS.

PLANNING COMMISSION - Community Projects - S.Kanara District - Opening of artificial Insemination centres at Mangalore and Karkal - report sent.

Ref: Government memo No.73 (C.P.) II.52-3 dated 18.10.52

*****

The proposal of the Government for the opening of artificial insemination centres in the district will no doubt be welcomed by the Public. But this proposal is however recommended first for Mangalore town only. After this centre has become popular and the ryots have begun to appreciate the amenity another can be opened at Karkal town. I am not in favour of opening two centres straightway as the recent experiment of artificial insemination at Koila cattle farm was not successful, due to want of sufficient propaganda among the ryots and as in consequence the centre had to be shifted from the district after a trial of only a few months.

Yours faithfully,

for Collector.

29/52.

D.C.P.

S.O

(Issued as Memo No. 73/52-1, dated 4-9-52). — p. 3 c.f.

(From the D.A.H., D.Dis. No. 11372-IV-2/52-2, d. 7-10-52). — p. 7 c.f.

The Secretary, The South Kanara Live-stock Improvement Association, Mangalore, forwarded a copy of the resolution passed by the Association requesting the D.C.P. to open Artificial Insemination centres at Mangalore and Karkal. } p. 1 c.f.

2. The Director of Animal Husbandry, to whom this was referred for remarks, says that the introduction of this technique will greatly make available good bulls serve a large number of cows which are of poor quality in South Kanara. He therefore recommends the opening of two Artificial Insemination centres, one at the Veterinary Hospital, Mangalore and the other at the Minor Veterinary Dispensary, Karkal. The detailed estimates of cost given by him are as follows:-

	Non-recuring Charges Rs.	Recuring Charges. Rs.
1) Artificial Insemination Centre at Veterinary Hospital, Mangalore.	5,500/-	6,824/-
2) Artificial Insemination Centre at Minor Veterinary Dispensary, Karkal.	7,500/-	6,596/-

The above estimates does not include the cost and maintenance of breeding bulls, as they will be supplied by the Cattle farms

3. In view of the above recommendation of the Director of Animal Husbandry, it is for consideration whether the P.E.G., Mangalore, may be asked to include the above schemes in the South Kanara Project estimates. After orders are issued regarding the draft memo will be submitted for approval

Extract of the correspondence may be sent to the P.E.O. of Coorg. He may be asked to provide for the scheme in the Estimate for both the P.E.O. & the Coorg region to offer their remarks. It is not known whether there is any developmental Scheme of A.H. Dept under which any of these centres mentioned are to be opened. The matter may be referred to him

print Simultaneously.
Dev. may see after the drafts are approved and issued.

CFrom the Director of Animal Husbandry, L. Dis. No. 12983-IV/52, dated 25-10-52). | p. 15 c.f

In reply to the memoranda on pp. 11 and 12 c.f., please see the letters from the Collr. of South Kanara and the Director of Animal Husbandry on pp. 13 and 15 c.f

2. The Director of Animal Husbandry has stated that the scheme for the opening of Artificial Insemination centres at Veterinary Hospital, Mangalore, and Karkal, ~~have~~ has not been included either in the Five Year Plan or in any developmental scheme of the Animal Husbandry department.

3. In the circumstances explained by him at 'A' on p.13 c.f., the Collector of South Kanara recommends the proposal for the opening of Artificial Insemination centre, first for Mangalore town only.

4. As directed in Memo No.73-Public (C.P.II)/52-3, dated 18-10-52 on p.11 c.f., the P.E.O. Mangalore, has included the schemes in the South Kanara Community Project Budget estimate submitted by him -- please see pp.11-17 of (A). It is seen that the cost of breeding bulls required for insemination purposes has also been included in the estimate. Attention is invited to the letter from the D.A.H. on p.7 c.f., wherein he says that two Sindhi breeding bulls and a Murrah buffalo breeding bull are available at the Veterinary Hospital, Mangalore can be used for the work and that for Karkala, bulls will be supplied from the Cattle Farm. It is presumed that these bulls will be supplied free of cost. If so, the P.E.O. may be asked not to include the cost of bulls in his estimate. This may be done when the scheme is actually put into execution.

5. It is also for consideration whether we may agree with the Collr. of South Kanara that the Artificial Insemination centre may be opened first for Mangalore town only. Development and Finance departments may see for remarks.

This should come under the Key Village Scheme. It is not clear whether the D.A.H. has taken this into consideration. This may be gone into later. Dev & Fin may see.

E(II)

Proposal in this file relates to the opening of an Artificial insemination centre at Mangalore City Hospital. According to the All India Key village scheme a cattle improvement Artificial insemination centres are to be opened in breeding tracts like Bangayam, Gnadle etc. The proposal of opening centres in Vety Hospitals does not therefore come under the Key village Plan.

It may be pointed that under the All India Key village scheme orders have already been issued for the opening of 7 Artificial insemination centres and 20 key villages around them

With these remarks this may be submitted to Finance (E III)

25/11/52

Finance (E III) Department.

The file deals with the request of the South Kanara Live Stock Improvement Association, Mangalore for the opening of Artificial Insemination Centres at Mangalore and Kankal. The D. A. H. has reported that the opening of Artificial Insemination Centres at Veterinary Hospital, Mangalore and Kankal has not been included either in the Five year plan or in any developmental

scheme of the Animal Husbandry Deptt. He has, however, stated that the Artificial Insemination of cattle is a new technique, that it has not made any headway in the fields and that the introduction of this technique will greatly make the available good bulls serve a larger number of cows which as in Southern areas are of poor quality. He has accordingly recommended that two Artificial Insemination Centres may be opened at Vety. Hospital Mangalore and Mobile Veterinary Dispensary Kar Kal. The financial implications of the proposals are as follows:—

For the reasons given by him at A. on p13cf the Collector of South Kanara recommends the proposal for the opening of Artificial Insemination centre first for Mangalore Town only. Public (CP) have stated that the proposal should come under 'Key Village Scheme' Development have stated that according to the 'All India Key Village Scheme of Cattle Improvement Artificial Insemination centres are to be opened in breeding tracts like Hangeyam Gangole, etc. and that the proposal of opening centres in Vety. Hospitals does not, therefore, come under "Key Village Plan

p13cf

X on p5 ante

P on p6 ante

2. In view of what is stated by Development the question arises now for consideration whether the proposals should be included in the C.P.A. plan. The reasons given by the Collector of South

Kanara to restrict the proposal to Mangalore town are convincing. This Department may therefore, with the full concurrence agree that the proposal may be confined to the Mangalore Town, if Public (CP) have no objection to meet the expenditure on account of the proposal from C.P.A funds.

3. If the suggestion of this Department is to be approved the total cost of the scheme will be Rs. 8,200 per annum recurring and Rs 5,500 non-recurring, 50% of the expenditure being met by C.P.A. F(Fn) may also see.
